

Best Oral and Poster Presentation Awards

**O-1 Yuto Ishikawa**, Gakushuin University.

「MICOS/MIB complex conversion contributes to increased cristae density during heart development」

**O-3 Shigeru Matsuda**, Tohoku university.

「Mitochondrial transcription exhibits diverse dynamics depending on the state of the cell.」

**O-18 Rikuto Toda**, Tokai University School of Science and Technology.

「The effect of mitophagy on muscle atrophy of soleus mainly-composed of slow-twitch fibers with complex II electron transport defects-overproduced ROS.」

**P-2 Sayaka Sekiya**, Yamagata University.

「Development of Cardiolipin Synthesis Inhibitors and Their Impact on Mitochondrial Morphology」

**P-5 Daishi Tanabu**, Gakushuin University.

「Functional Characterization of the Novel Mitochondrial Activator MitoRubin」

**P-11 Nao Tsubata**, Tokushima University.

「Quality and functional properties of microglia- and mesenchymal stromal cell-derived mitochondria for mitochondria-based therapeutics in neurological disorders」

**P-12 Souta Konno**, The University of Osaka.

「The nucleoside diphosphate kinase NME6 regulates nucleoid dynamics and mitochondrial function」

**P-14 Natsuha Nishikawa**, Wakayama Medical University.

「Establishing a new evaluation platform for mitochondrial respiratory complex assembly」

おめでとうございます。遠方もあり表彰状は後日郵送いたします。
